Welcome to Canyon Vista Medical Center, a new standard for comprehensive medical care serving Cochise County, Fort Huachuca, and the surrounding areas. Our new 100-bed, 177,000 square foot hospital has been planned, built, equipped, staffed and dedicated with a single mission in mind — to deliver exceptional healthcare by leading the way in five critical areas.

Comprehensive Medical Services. From cardiac care to orthopaedics to a 19-bed adult psychiatric unit, we have the capability and expertise to treat almost any medical condition. Canyon Vista Medical Center is Joint Commission Accredited, a Level III Trauma Center, an Arizona Cardiac Receiving Center and a Pink Ribbon Facility for Breast Health Excellence.

Advanced Medical Technology. From our Aquillion CT scanner with 128 slice reconstruction package, 3-D Mammography, and to our hi-tech nuclear medicine, the equipment and facilities at Canyon Vista Medical Center provide physicians and staff access to the latest advances in medical technology.

Exceptional Patient Care. Every patient room is private and equipped with computers. Every family is treated with respect. Every detail, such as separate entrances for emergency care and ambulance service, is designed to give every patient the best possible medical care.

Advanced Communications Among Providers. Seamless, hospital-wide collaboration among our care team members regardless of their location on campus provides fast access to patient information and results.

A Commitment To Extraordinary Care. The Canyon Vista Medical Center staff is dedicated to a heart of service. Our core purpose is to treat everyone like family, providing the peace of mind that comes from receiving extraordinary care close to home.
Admissions
There is a dedicated Hospitality Center where visitors are greeted and provided information about Canyon Vista Medical Center. A new lobby management process insures patients are guided to their desired location. Artwork by local artists and photographers decorate the hospital to create a healing environment.

Emergency Services
Designated as a Level III Trauma Center, we have a separate entrance and ambulance bay. Twenty-one exam rooms and 2 trauma suites provide lifesaving medical care, 24 hours a day, seven days a week, with 24-hour physician staffing and an on-site helicopter. Equipped with a Fast Track for urgent conditions that can be treated quickly, our goal is to get patients in and out within one hour.

Diagnostic Imaging and Laboratory Services.
Outpatient Radiology Services and Walk-in Lab Services are available at the Carter Imaging Center located near the hospital at 151 Colonia de Salud. Services include: CT, X-ray, 3D Mammography, PET/CT, Ultrasound, Nuclear Medicine, DEXA Scanning.

Surgical Services
We have 4 operating suites, 1 cardiac catheterization lab, 12 pre- and post-procedures rooms, 3 rooms for endoscopy, bronchoscopy, pain clinic procedures, and 7 Post Anesthesia Recovery Units.

Recognized for Excellence in Breast Health
Care Unit beds. Canyon Vista Medical Center is equipped to handle a wide range of surgical and endoscopy services to include Bronchoscopy, Endoscopy, General Surgery, Gynecological Surgery, Arthroscopic Surgery, Orthopaedics, Otolaryngology, Urology, Manometry, Podiatry, Laser Surgery, Dental/Oral Surgery, Plastic Surgery and Laparoscopy.

5 **Cardiac Catheterization Lab**
Recognized as an Arizona Cardiac Receiving Center, our cardiac catheterization lab provides the following services: diagnostic right and left heart catheterization, intra-aortic balloon pump, temporary pacemaker placement, and procedural education.

6 **Acute Care**
Hospital-wide telemetry coverage makes it possible for telemetry monitoring from anywhere in the hospital.

7 **Progressive Care Unit**
Our 8-bed Progressive Care Unit provides a smooth transition from the ICU.

8 **Intensive Care Unit**
Our 12-bed Intensive Care Unit provides life support therapies for critically ill patients.

9 **Women & Children’s Services**
We have a triage area where arriving mothers are assessed prior to admission, 7 labor and delivery rooms, 14 postpartum rooms where mothers stay until discharge, 8 antepartum rooms where women are observed during preterm labor or other complications, an operating room and a Level II nursery. Our spacious labor and delivery suites also feature a fold-out bed so a loved one can comfortably spend the night.
